### ABOUT THE INSTRUCTOR

Jessica Joines is a former Global CMO turned bestselling author, coach and inspirational speaker. She is best known for completely reinventing her life shortly after turning 40; when the one she had built was no longer serving her. She now helps executives master the twelve spiritual lessons that have been so essential to her own journey, as featured in her book, *Dare to Believe*. Through this work, she empowers others to thrive in all they do, living and leading from their highest potential and truth.

Jessica's own career path and personal story have been marked by a long commitment to leading with purpose. While she excelled in her corporate marketing career over the last two decades — most recently as the *Global CMO at Rakuten* — she felt something was missing. So she bravely stepped into the unknown and changed, well...everything. Eventually finding fulfillment through an alignment with her soul calling.

Now, as a spiritual coach for business leaders, Jessica helps her clients leverage consciousness and self-awareness to deepen their own leadership ability. And choose callings over careers. Inherent to this, she teaches and leads workshops on how to not engage with fear as truth, but as our most profound teacher. As the journey towards purpose is almost always one through fear.

Jessica is a contributing author to *Thrive Global*. Her bestselling book, *Dare to Believe: 12 Lessons for Living Your Soul Purpose*, topped charts on Amazon for months and has been applauded by authors and teachers alike. Jessica is the Founder of the *Women's Purpose Retreat*, a spiritual retreat for the C-Suite. She is also the host of a monthly live online TV show, "*Soul Purpose with Jessica Joines*," on the *United Intentions* network. You can learn more about Jessica's work [here](#).
